Dear Reader:

The following pages summarize the basic governmental structure and public services of each of Palm Beach County's 37 municipalities. Basic boundary maps for each municipality are provided as well.

Since officials in local government change periodically, the facts in this publication are updated and republished semi-annually (January and July). Also in this issue, four pages of data from the similar, and previously separate, Directory of Palm Beach County Municipal League are presented.

Additional information on any specific municipality may be obtained by contacting the Area Planning Board Research Section.

Sincerely,

Frank W. Brutt
